MESSAGE

“Without Education It Is Complete Darkness and With Education It Is Light, Education Is a Matter of Life and Death to Our Nation, The World Is Moving So Fast That If You Do Not Educate Yourselves, You Will Be Not Only Completely Left Behind but Will Be Finished Up.

Quaid e Azam
Muhammad Ali Jinnah
Father of The Nation

MESSAGE

If Things Do Not Change, There Will Be Nothing Left to Change, Either Power Must Pass to The People or Everything Will Perish.

Shaheed Zulfiqar Ali Bhutto
Founder of Pakistan's
Atomic Bomb Programme

MESSAGE

I am a woman. Clearly, it's not easy for women in modern society, no matter where we live. We still must go to the extra mile to prove that we are equal to men. We must work longer hours and make more sacrifices.

Shaheed BiBi Benazir Bhutto

Champion of Women's Rights

MESSAGE

Education and knowledge were vital to eradicate ignorance in society. Education was the main step to end the sense of class and cultural deprivation.

Asif Ali Zardari
Former President
Islamic Republic of Pakistan

MESSAGE

It is a great pleasure and my Scholarly Obligation to write this message for the prospectus of 2023-24 for the students who will be joining this university for admission in Bachelor of Sciences intensive Care Technology, Bachelor of Sciences Anesthesia Technology, Bachelor of Sciences Cardiovascular Technology & Bachelor of Sciences Medical Laboratory Technology.

Being the head one feel satisfaction to see the Institute growing and students growing so Alhamdulillah we are stepping forward by initiating new courses at undergraduate & postgraduate level.

Universities are to disseminate Knowledge by educating greater proportion of population and to promote research so to contribute to making better health and wellbeing of every individual. People's University is struggling hard for quality education and research. We are making strenuous efforts to assist and assemble all modern teaching, training, patient care and research facilities, for this I am thankful to all the faculty members for their valuable input and support to achieve these goals.

The test conducted by the Peoples University of Medical & Health Sciences for Women will be for male/female candidates and will be valid for the admission in courses of BS-ICT, BS-AT, BS-CVT & BS-MLT, as per merit cum choice of applicants in the respective course and allocation of seats for the session 2023-24 is open throughout Sindh. I hope the transparent practice and skillfulness of admission system will keep satisfying all the applicants whether they qualify or not. This prospectus will guide the interested candidates during the entire process of admission for session 2023-24.

I appreciate the efforts of the admission department for their dedicated work throughout the process of admission and keeping the system transparent. I wish a successful admission process in Peoples University of Medical & Health Sciences for Women, Nawabshah, Shaheed Benazirabad and expect that successful candidates will invest their entire energies towards the acquisition of knowledge and skills to become competent, efficient and caring member of medical profession.

Professor Gulshan Ali Memon
Vice Chancellor
People's university of medical &
Health Sciences for Women,
Shaheed Benazirabad

MESSAGE

The Peoples University of Medical & Health Sciences, Shaheed Benazirabad, has been established to provide quality educational experience to students from different backgrounds and to impart competitive abilities along with hospital expertise in students. We, at the University of Technology always keep our students at the center and intend to impact

and transform their lives. The university continuously aspires to create platform for creative ideas and openness in thought and action. I urge everyone to join us in fostering a healthy, peaceful, and engrossing atmosphere at the university campuses. We invite students and faculty to join us in our journey of making the university the best place to learn and work.

Best wishes

**Professor Muhammad Saleh
Khaskheli**

Pro-Vice Chancellor
People's university of medical &
Health Sciences for Women,
Shaheed Benazirabad

MESSAGE

It gives me immense pleasure to welcome aspiring students to the Peoples University of Medical & Health Sciences for Women, Shaheed Benazirabad. We shall stand on rising sun through journey of knowledge and discovery and overcome challenges to shape you into first-class professionals. University will enable you

in your growth and success. The University is relatively new, having been upgraded in 2011, Despite that faculty comprises highly experienced and respected professionals ' who have been teaching and training medical students for decades. The experience and wisdom of the senior faculty with enthusiasm have settled this university as a powerhouse of innovation, modernity, and depth of knowledge. The education you receive shall prepare you to face the challenges of tomorrow as the best health professionals. You shall be required to serve the humanity with the compassion and care that PUMHS students are renowned in educating foreign students when you shall be seen as ambassadors of Pakistan with your outstanding skills and professional behavior. I wish to emphasize that your hard work will be the vivid star to success your dreams under the auspices of this university. Being Custodian/Registrar, I ensure that you shall receive high quality education enriched with teaching, training, research, and true humanism. I hope you will give back your passion and commitment to make PUMHS the best institution of modern learning.

Prof. Qurban Ali Rahu
Registrar
People's university of medical
& Health Sciences for
Women, Shaheed

MESSAGE

Welcome to the People's Institute of Technologist in Health (PITH), Peoples University of Medical & Health Sciences for Women (PUMHSW) Nawab Shah, Shaheed Benazirabad.

PITH is one of the first initiatives of PUMHSW in Allied Health Sciences offering four different technologies including BS-Intensive Care Technology, BS- Anesthesia Technology, BS- Cardiovascular Technology & BS- Medical Laboratory Technology.

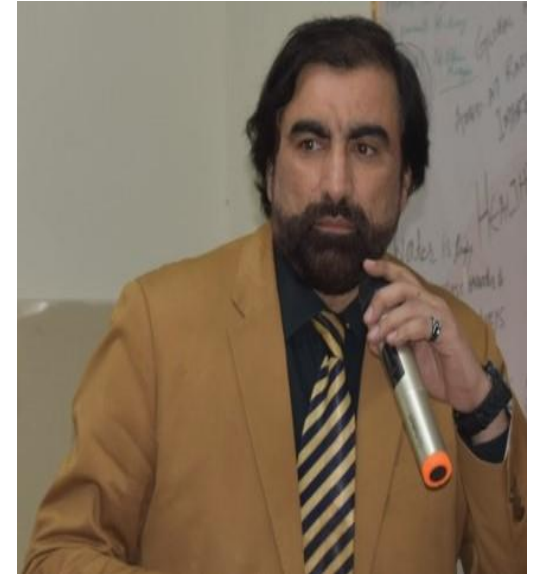

Allied Health professionals are globally recognized as vital, indispensable, and distinct members of the health team. Though our university comprises of different medical technologies, we share the common goals of medical excellence in Allied Health Sciences. Our aim is not only to equip our students with professional skills but also with critical thinking and problem-solving skills. Our faculty comprises highly qualified professionals. Our innovative and unique programs are designed to meet student's interests and career aspirations, along with the market-driven requirements of employers. It's an exciting time to be a part of this university as we will strive to prepare students to take an active role in shaping the future of Allied Health Sciences.

Prof. Rafique Ahmed Sahito
Principal PITH
People's university of medical
& Health Sciences for Women,
Shaheed Benazirabad

MESSAGE

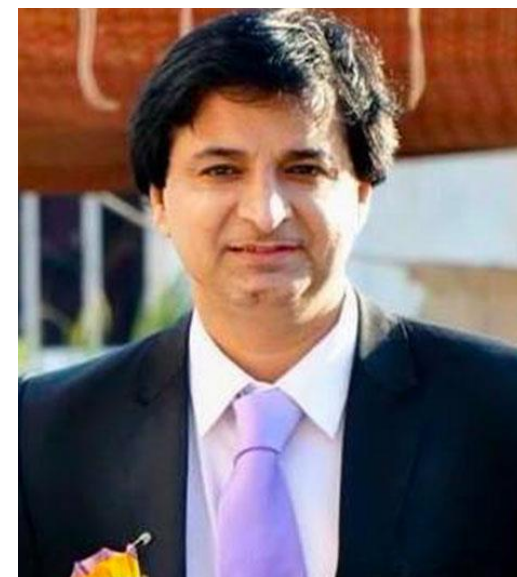

As a Director of Academics, I feel honor to convey this message to all students and learned Teachers that the “The Knowledge” is the GIFT OF GOD for mankind. As it is revealed from the Divine Book “The Quran “also Stated with First-WAHI_ IQRA, Means to READ. So, I wish May ALLAH Bless us with this GIFT in our Generations.

Prof. Muhamad Ali Sohail
Director Academics
People's university of medical
& Health Sciences for Women,
Shaheed Benazirabad

MESSAGE

It's matter of great pleasure to write message on prospectus of Bachelor of Sciences intensive Care Technology (BS-ICT), Bachelor of Sciences Anesthesia Technology (BS-AT), Bachelor of Sciences Cardiovascular Technology (BS-CVT) & Bachelor of Sciences Medical Laboratory (BS-MLT) batch 2024 of People's University of

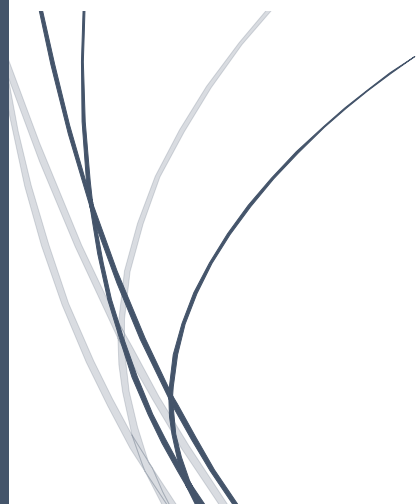

Prof. Dr. Ali Raza Brohi

Director Admissions
People's university of medical
& Health Sciences for Women,
Shaheed Benazirabad

Medical & Health Sciences for Women, And I being Director Admissions feel honored. Indeed, the prospectus will guide the admission process to interested candidates & every detail pertaining to admission will be highlighted. I wish the successful admission process being host. Director Admission its great responsibility on my shoulder to look after the whole admission process transparently with skillful admission team & system of PUMHS.

I wish & expect successful candidates to invest their entire energies towards the acquisition of knowledge & skill to become competent, efficient medical professionals.

MESSAGE

This prospectus has been prepared to provide information to the candidates desirous of seeking admission in BS-ICT, BS-AT, BS-CVT & BS-MLT offered by Peoples University of Medical & Health Sciences for Women, Nawabshah, Shaheed Benazirabad. It contains the details of courses offered by Peoples University of Medical & Health Sciences for Women, Nawabshah, Shaheed Benazirabad.

This prospectus also provides information and details about the rules and procedures of admission, selection criteria, available seats, etc. Notwithstanding the brevity of space and size, an attempt has been made to cover the most relevant and significant aspects of the whole process of admissions and the conduct of courses. It should also be noted that this Prospectus is accurate and up to date till the date of its publication.

However, the authorities reserve the right to make changes in the rules, or in any other aspect of the admission process and conduct/completion of the courses as and when deemed necessary, without prior notice.

Prof. Rafique Ahmed Sahito
Editor
People's university of medical
& Health Sciences for Women,
Shaheed Benazirabad

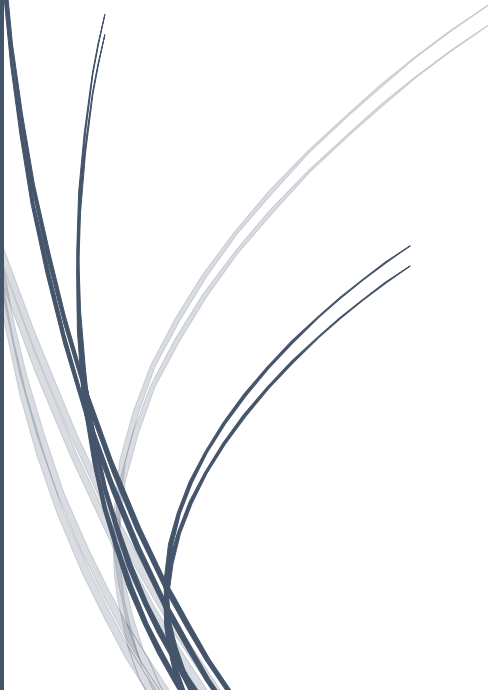

INTRODUCTION

“A GOOD EDUCATION IS THE FOUNDATION OF A BRIGHT FUTURE.”

Allied Health Sciences is an emerging field in Medical Sciences, giving new dimensions to solve the challenges faced by health service providers. Allied health workers constitute nearly 60% of the healthcare workforce which includes hundreds of professionals employed in different health specialties with different job duties at various levels. The WHO Global Strategy on Human Resources for Health: Workforce 2030 estimates a global shortfall of almost 18 million health workers by 2030, to overcome this shortfall education

plays a pivotal role in the growth and progress of a country, where skills and human capital is the key competent of any developmental strategy. If Pakistan must have a knowledge-based economy, it must invest its youth and promote knowledge and expertise. With technological advancement and treatment innovation, the landscape of healthcare practice has changed over the period. The challenge in healthcare delivery is to widen the base of medical education into Allied Health Sciences. Since the delivery of healthcare is no longer limited to medical practitioners, the role of allied health professionals has gained significant importance. The opportunities seem limitless, as the scope of practices and the need for healthcare practitioners continually expand. There is a grave national level deficiency of qualified Allied Health Professionals. The scope of any field is based upon the market demand and career-built opportunities. It is because medical technology is a degree level study so the demand for a graduate of medical science / technology is very high in hospitals, laboratories, and other medical research institutes. In the upcoming days this field will get more advanced and the demand for a skilled medical technologist will also be higher, and scope of medical technology will be brighter. This urges for taking initiatives to establish such institutions in both public and private sectors to overcome the deficiency of such professionals Peoples institute of Medical Technology, PUMHSW, Nawab shah, Shaheed Benazirabad, is a significant step in this regard. The main purpose of the college is to improve the education status and training of Allied Health Professionals who are the most important part of the health care system. At Peoples Institute of Technologist in Health (PITH), students receive career-focused education in one-of-a-kind environment, not limited to classroom as health and allied health professionals play an important role in patient care and health management information. Our meticulously dedicated faculty members are always ready to facilitate and guide the students, maximize their learning potential by providing contemporary, state-of-the-art education. Our clinical faculty is also dedicated to allocating their clinical knowledge from their experience to the students in their respective field The well-equipped learning resources include a digital and skills laboratory that imparts practical skills with theoretical knowledge from the semester-based syllabus Allied Health professionals work as part of the healthcare team to make the healthcare system function smooth by providing a range of diagnostic, technical, therapeutic, and direct patient care. They also serve as support services that are critical to the other health professionals they work with and the patients they serve. giving a new dimension to the quality health care delivery system.

Peoples Institute of Technologist in Health is going to be started in the year 2023-24 under the umbrella of Peoples university of medical & Health sciences Nawabshah, Shaheed Benazirabad. Many professionals work along with physicians and nurses to provide healthcare services that are safe, patient-centered, efficient, equitable, timely and effective. These professionals represent various Allied Health disciplines including BS- Intensive Care Technology, BS- Anesthesia Technology, BS- Cardiovascular Technology & BS- Medical Laboratory Technology.

VISION

EXCELLENCE IN HEALTHCARE FOR ALL TO PLEASE ALLAH (SUBHANAHU WA TA'ALA)

To be the premier source of educational excellence and training in Allied Health Sciences. We aspire to be the top academic and technological center of Medical Sciences and technology.

MISSION

Promote a conducive learning environment to maximize graduate potential that is responsive to national need and bring impact on professional practice and education. **Attain** the highest standards in teaching and learning through quality education and evidence-based knowledge. **To expand** human capacity by preparing graduates in Allied Health Sciences field equipped with evidence-based knowledge. **To provide** an innovative educational environment, opportunities and hands on experience that enables individuals, communities, and the region to grow, thrive and prosper. **Educate** prepare students to become medical technologists/scientists; collaborate- promote partnerships with the community to expand knowledge and resources; and innovate discover, develop, and implement advances in medical science and technology.

GOALS

Provide a model education system based on scientific knowledge and technology.

Improve inter-Professional collaboration with all healthcare peers.

COMPETENCIES

At the completion of medical technology curriculum, student can:

Meet the entry level skills for each discipline as specified in the curriculum. Skills include pre analytical (e.g., specimen procurement, preparation, equipment calibration), analytical (e.g., analysis, instrument operation, quality control), and post analytical (e.g.,

reporting follows up, clinical interpretations) major disciplines with within the field. Demonstrate entry level knowledge of each discipline as specified in the curriculum. Knowledge includes principle of analysis, sources of errors, correlations, interpretations, managing unexpected outcomes, and communications. Demonstrate entry level professionalism as specified in the curriculum, professional traits include reliability, flexibility, integrity, ethics, initiative, and interpersonal relations.

- Care provider
- Communicator
- Professional
- Teamwork

OUTCOMES

Provide safe, skilled, and efficient healthcare services.

Communicate professionally and ethically with colleagues, seniors, patients, and their relatives in the workplace.

Demonstrate efficient and effective team working abilities.

PROGRAMME OFFERED

Peoples institute of Technologist in Health is offering 4 Years BS Degree Programs in the following disciplines.

1. BS- INTENSIVE CARE TECHNOLOGY

2. BS- ANESTHESIA TECHNOLOGY

3. BS- CARDIOVASCULAR TECHNOLOGY

4. BS- MEDICAL LABORATORY TECHNOLOGY

BS-Intensive Care Technology

BS-Intensive Care Technology

INTRODUCTION

The Intensive care technology program at the people's institute of Technologist in Health , degree program that offers the student an opportunity to develop the technical ability, knowledge and skills required for entry level employment in any medical & surgical setting, intensive hospital care or free-standing healthcare facility as a member of the Intensive care team.

Intensive care (critical care) is a multidisciplinary and interprofessional specialty specifically designed for the management of patients at risk of developing or with established, life-threatening organ failure, critical care technology is a subspecialty of anesthesiology & internal medicine.

AIMS & OBJECTIVES

The aim of Bachelor of Science in Critical Care Technology (BS-ICT) program is to provide quality training to students who will deal with critically ill patients. Candidates are trained to work in Intensive Care Units (ICU) and monitor patients. They are actively involved in the management of critically ill patients and perform life-saving procedures under the supervision of a senior consultants. The course also trains candidates to provide first-aid to patients in the absence of a certified medical professional.

The goal of the course is to prepare Intensive care technologists who are highly competent in knowledge, skills, and professional demeanor consistent with local employer expectations and professional standards. The specific objective of the program is to produce Intensive care technologist with the capabilities to Function safely, effectively, and efficiently and exhibit ethical behavior in an Intensive care technologist role.

Training is also provided to handle a variety of injuries, physical ailments, and to transport patients to external facilities for extended treatment such as burn and trauma injuries.

CARRER OPPORTUNITY

- Government hospital/ICUs
- Private Hospitals
- Trauma Centers
- Clinical coordinators
- Research Center

COURSES

BS- Intensive care technology is a four (4) years program along with 6 months internship.

Each year is divided into 2 semesters thus making a total of eight (8) semesters.

SCHEME OF STUDIES

BS INTENSIVE CARE TECHNOLOGY

1st Semester

Code	Course Title	Credit Hour
BS ICT-1101	Anatomy- I	3 (2 + 1)
BS ICT -1102	Physiology - I	3 (2 + 1)
BS ICT -1103	Biochemistry - I	3 (2 + 1)
BS ICT -1104	Microbiology - I	3 (2 + 1)
BS ICT -1105	English	3 (3 + 0)
Total Credit Hours		15

2nd Semester

Code	Course Title	Credit Hour
BS ICT -1201	Anatomy- II	3 (3 + 0)
BS ICT -1202	Physiology - II	3 (2 + 1)
BS ICT -1203	Biochemistry - II	3 (2 + 1)
BS ICT -1204	Microbiology - II	3 (2 + 1)
BS ICT -1205	English Communication	3 (2 + 1)
Total Credit Hours		15

3rd Semester

Code	Course Title	Credit Hour
BS ICT-1301	Pathology - I	3 (2 + 1)
BS ICT-1302	Pharmacology - I	3 (2 + 1)
BS ICT-1303	Emergency Medicine	3 (2 + 1)
BS ICT-1304	Critical Care	3 (2 + 1)
BS ICT-1305	Islamiyat	3 (3 + 0)
Total Credit Hours		15

4th Semester

Code	Course Title	Credit Hour
BS ICT-1401	Pathology-II	3 (2 + 1)
BS ICT-1402	Emergency Surgery	3 (2 + 1)
BS ICT-1403	Pharmacology-II	3 (2 + 1)
BS ICT-1404	Applied Physics and Engineering Sciences	3 (2 + 1)
BS ICT-1405	Introduction to IT	2 (2 + 0)
BS ICT-1406	Pakistan Study	1 (1 + 0)
Total Credit Hours		15

5th Semester

Code	Course Title	Credit Hour
BS ICT -1501	Introduction To Intensive Care & Intensive Care Apparatus	3 (2 + 1)
BS ICT -1502	Errors & Complications in Intensive Care & Critical Care	3 (2 + 1)
BS ICT -1503	Applied Pharmacology	3 (2 + 1)
BS ICT -1504	Monitoring In ICU	3 (2 + 1)
BS ICT -1505	Invasive & Non-Invasive Cardiovascular Monitoring Techniques	3 (2 + 1)
BS ICT -1506	Practicum	2 (2+0)
Total Credit Hours		17

6th Semester

Code	Course Title	Credit Hour
BS ICT -1601	Metabolic & Endocrine Disorders	3 (2 + 1)
BS ICT -1602	Hepatic & Cardiovascular Disorders	3 (2 + 1)
BS ICT -1603	Renal Failure & Management	3 (2 + 1)
BS ICT -1604	Clinical Nutrition & Diet Therapy	3 (2 + 1)
BS ICT -1605	Epidemiology & Bio Statics	3 (2 + 1)
BS ICT -1606	Practicum	2 (2+0)
Total Credit Hours		17

7th Semester

Code	Course Title	Credit Hour
BS ICT -1701	Respiratory Medicine Oxygen Therapy & Airway Management	3 (2 + 1)
BS ICT -1702	Body Fluids & Transfusion of Blood Products	3 (2 + 1)
BS ICT -1703	Cardiopulmonary Resuscitation	3 (2 + 1)
BS ICT -1704	Trauma & Burns	3 (2 + 1)

BS-Anesthesia Technology

BS-Anesthesia Technology

INTRODUCTION

The Anesthesiologist is often a vaguely remembered actor from the surrealistic scenes that precede and follow surgery. With all the powers of Morpheus, like the Greek god of sleep and dreams, the anesthesiologist seems to delight in his role as he smiles down on his vulnerable patients. Anesthesia was used in 95% of Civil War surgeries. Sulfuric ether had been discovered in Europe in the 1830's and was first used as an anesthetic in 1846. Anesthesia enables the painless performance of medical procedure that would otherwise cause severe or intolerable pain to an unanesthetized patient or would otherwise be technically unfeasible. Modern medicine would not be possible without anesthesia. The Department of Anesthesiology provides state-of-the-art care for patients undergoing all types of surgical procedures. Because the discipline has become so specialized, we have subspecialty trained anesthesia Technologist available in areas such as Cardiac, General, Gynae & Obs, Critical care, Neuro-anesthesia, Pain medicine and trauma.

AIMS & OBJECTIVES

The Anesthesia Technology program at the Faculty of Health and Medical Sciences degree program that offers the student an opportunity to develop the technical ability, knowledge and skills required for entry level employment in any surgical setting, hospital operating room or free-standing healthcare facility, as a member of the anesthesia team.

The goal of the course is to prepare anesthesia technologists who are highly competent in the knowledge, skills and professional demeanor consistent with local employer expectations and professional standards. The specific objective of the program is to produce anesthesia technologist with the capabilities to:

- Function safely, effectively, and efficiently and exhibit ethical behavior in an anesthesia technologist role,

CARRER OPPORTUNITY

There are many job opportunities for an Anesthesia Technologist. They will get the employment in medical universities, public sectors, outpatient care center, specialty hospital, Operation Theater (OR, OT), Post-op Recovery room, Emergency Room, Intensive care Unit, Emergency Ambulatory Vehicle. After gaining experience, one can work as a teacher in the area of anesthesiology in national & international universities. PITH offers a four-year BS Anesthesia Technology Program. The mission of the Department of Anesthesiology is to provide the best technologist to the community via our educational and research efforts. The Department of Anesthesiology values visionary leadership at all ranks that promotes and safeguards an organizational culture of respect for all individual's collaboration and shared knowledge among all caregivers.

COURSES

BS- Anesthesia Technology is a four (4) years program along with 6 months internship. Each year is divided into 2 semesters thus making a total of eight (8) semesters.

BS-Medical Laboratory Technology

BS-MEDICAL LABORATORY TECHNOLOGY

INTRODUCTION

Medical Laboratory Technology (MLT) a pioneer field of allied Health Sciences which basically deals with laboratory investigation in terms of diagnosis, treatment and monitoring of disease. with the current advancement in the field of science and technology, MLT has also evolved greatly.

The significance of MLT can be understood from the fact that around 70% of decisions regarding diagnosis, treatment, admission in the hospitals and discharge are solely based on the laboratory results. In UK, the workforce of laboratory personnel along with other allied health professionals comprises of only 5% but their work underpins around 80% of entire diagnosis and clinical decision.

The Medical Laboratory Technology nowadays known as medical laboratory scientist possesses advanced knowledge and skills and perform complex test or assays. Program is a four-year program consisting of foundation education, compulsory, and professional courses, directed to improve student' qualifications and enhance their interpersonal skills.

The integration of these courses will provide students with comprehensive knowledge to meet the educational needs of a medical technologist in different medical specialties, both in primary and tertiary healthcare hospitals.

The overall aim of the BS medical laboratory Programme is to prepare competent entry-level technologist in cognitive (knowledge), Psychomotor (Skills), and affective (Behavior) learning domains to work successfully in a multicultural diverse healthcare environment.

The BS Medical Laboratory Technology program of study aims to provide quality education and equip students with in-depth knowledge, analytic skills, and professional attitude to perform clinical laboratory procedures in any healthcare setting.

During this four-year program, the students will strongly be educated theoretically along with a robust emphasis on developing practical skills via rigorous training at Research Diagnostic Center & Pathology Department of PUMHSW to meet the required challenges of modern health care system. They perform several tests, detect test abnormalities, and give physicians prompt information, which helps diagnose, treat, and manage diseases. Such critical procedures require strong base knowledge, technical skills, and the ability to work under pressure.

AIMS & OBJECTIVES

A The goal of this four-year Bachelor of Sciences degree program is to prepare clinical laboratory sciences technologists who are highly competent in the knowledge skills and professional demeanor consistent with local employer expectations and professional standards. At the completion of the MLT program, students will be able to:

- Function explains the principles and methods used in molecular laboratory tests.
- Explained the clinical significance of molecular laboratory procedures in diagnosis and treatment was done disease to maintenance of health.
- Interpret and evaluate patient results and suggest or select appropriate additional testing.
- Use quality assurance principles and practices to ensure the accuracy and reliability of laboratory information.
- Use the principles of method evaluation to select new techniques and instruments.
- Explain and apply the major principles and practices of laboratory administration supervision and budgeting.
- Use educational methods to present information and develop it into directional materials.
- Use research methods to design conduct and disseminate results of studies on new technologies, procedures all diagnostic correlations in molecular science.
- Interpreters implement and complying with laws regulations and accreditation standards and guidelines of relevant governmental and non-governmental agencies.
- Apply principles of management to the acquisition and evolution of laboratory information system to maintain optimal laboratory efficiency.

- Communicate effectively with laboratory personnel other healthcare professional's patient and the public communicate effectively in both written and spoken English.
- Formulate and strategic plan for professional career development.
- Development and complete capstone project in advanced clinical laboratory practice education or laboratory operations.

CARRER OPPORTUNITY

A Medical Laboratory Technologist (now a days known as Medical Laboratory Scientist) possesses advanced knowledge and skills and performs complex tests or assays. Laboratory Technologists may be Generalists or Specialists depending upon the skills and lab they are working in. As per reports, most of the technologists work full-time in hospital laboratories, reference and research labs or other private labs. However, they may also have opportunities of employment in forensic, food and environmental labs. Moreover, numerous manufacturers and suppliers of laboratory equipment and diagnostic kits also prefer experienced Technologists for development of new products, sales, and marketing of their products.

COURSES

BS- Medical Laboratory Technology is a four (4) years program along with 6 months internship. Each year is divided into 2 semesters thus making total of eight (8) semesters.

SCHEME OF STUDIES BS MEDICAL LABORATORY TECHNOLOGY

1st Semester

Code	Course Title	Credit Hour
BS MLT-1101	Anatomy- I	3 (2 + 1)
BS MLT-1101	Physiology - I	3 (2 + 1)
BS MLT-1101	Biochemistry - I	3 (2 + 1)
BS MLT-1101	Microbiology - I	3 (2 + 1)
BS MLT-1101	English	3 (3 + 0)
Total Credit Hours		15

2nd Semester

Code	Course Title	Credit Hour
BS MLT-1201	Anatomy- II	3 (3 + 0)
BS MLT-1201	Physiology - II	3 (2 + 1)

BS-Cardiovascular Technology

BS-Cardiovascular Technology

INTRODUCTION

Cardiology Technology is an emerging field of Allied Health Sciences. This field basically utilizes invasive and non-invasive procedures for diagnostics, therapeutic and preventive purposes in cardiovascular care. The main procedures involved in cardiology technology are electrocardiography and stress ECG, echocardiography, electrophysiology, interventional cardiology, preventive cardiology, nuclear cardiology, cardiopulmonary diseases and cardiac surgery.

AIMS & OBJECTIVES

The four-year Bachelor of Science of Cardiovascular Technology degree offers the students and opportunity to develop the technical ability, knowledge and skills required for entry level employment as a member of the cardiovascular team. The specific objective of the program is to produce cardiovascular technologist with the capabilities to:

- Function effectively and efficiently and exhibit ethical behavior in an cardiovascular technologist role,
- Complete all work in accordance with legal and ethical requirements of field, using accepted safety practices, and appropriate terminology specific to the occupation and industry.
- Operate sophisticated medical equipment to assist physicians in the diagnosis and treatment of cardiovascular disorders.

- Prepare accurate test reports such as electrocardiogram, Holter scan and exercise test for the interpreting cardiologist.
- Critically evaluate the patient's cardiac status using the relevant test procedure and result.
- Apply scientific principles in the operation and evaluation of laboratory equipment and implanted cardiac rhythm management devices and assist with obtaining measurements and monitoring of patient's hemodynamic parameters.
- Provide competent cardiovascular testing.
- Identify emergency equipment, cardiovascular drugs, their use and the role of each member of cardiac diagnostic team during a cardiac emergency.
- Provide quality patient care through all interactions and families, co-workers, and the community.
- In the 3rd & 4th study year students are required to complete an sixteen weeks practicum in an accredited institution, attend seminars, undertake independent research and write a thesis in a major subject.

CARRER OPPORTUNITY

After successful completion of four years BS degree in Cardiovascular Sciences technology. The Cardiology technologists have opportunities both in universities and hospitals, as lecturer and clinically as cardiology technologist to assist invasive procedures such as implanting cardiac catheters during angiographic and angioplasty procedures, inserting pacemakers, assisting electrophysiology procedures and assisting Cardiac surgeon during cardiac surgery. Cardiology technologists also perform and report noninvasive procedures such as echocardiography, electrocardiography, and exercise tolerance test (ETT). They will also be able to work in all public and private sector hospitals.

The PITH will play a major role in producing professional Cardiac Technologist through a taught course of four-year BS degree program in Cardiovascular Technology. During the course the student will be allowed for clinical exposure in different hospitals to learn clinical aspects of different diseases related to cardiology and to utilize their knowledge in diagnostic procedures such as ECG, Echocardiography, ambulatory B.P monitoring, ECG Event/loop Monitoring and angiography and stress testing etc.

COURSES

BS Cardiovascular Technology is a four (4) years program along with 6 months internship. Each year is divided into 2 semesters thus making a total of eight (8) semesters.

ALLOCATIONS OF SEATS

All seats are open merit basis for Sindh.
Each discipline consists of 25 seats.

HISTORICAL BACKGROUND

GLIMPSE OF PUMHS AT GLANCE

With passion vision of Shaheed Zulfikar Ali Bhutto, the premier Medical College exclusive for girls Came into existence in April 1974 at Nawabshah with the name of Peoples Medical College. About 6000 & plus Female doctors have been graduated from this College so far. Postgraduate training in this institute started in 2004 and since then about 600 & plus postgraduate trainees have imparted training in various specialties.

Mr. Ghulam Mustafa Jatoi is credit for establishing Peoples Medical College for Girls Now PUMHS during his stint as Chief Minister of Sindh. Following the passage of bill of establishing medical college in Nawabshah by the Sindh Assembly, Mr. Jatoi confronted with a difficult situation for finding out a suitable location to start classes of the said institution immediately. For that matter he visited his teacher Mr. H.M Khoja and requested him to allow him to start girls' medical college in a building (which was then housing a school run by Mr. H.M Khoja) on makeshift basis. For the sake of promotion of education in the area and the newly established Peoples Medical College functional.

Initially this College was temporarily housed in portion of District Council High School consisting of a couple of hostels and auditorium (Latif Hall) along with the main building of Muslim Boarding House. The first batch was admitted with an approximate enrollment of about 100 students. Soon after the District Hospital was attached to the college for the purpose of clinical teaching. Peoples University of Medical & Health Sciences for Women, Nawabshah, Shaheed Benazirabad was established by Act of Government of Sindh 2009 dated 21-12- 2009, Governor of Sindh & Chancellor given Ascent on 10-11-2010.

Vice Chancellor, Peoples University of Medical & Health Sciences for Women, Prof. Dr. Gulshan Ali Memon has took effort to established Examination Branch with three sections, Conduct Branch, Secret Branch & Top-Secret Branch having optical marker & photocopier along with computer & printer. Now the examination is conducted by Peoples University of Medical & Health Sciences for Women, Nawabshah (SBA), maintaining the secrecy & credibility.

The land about 200 acres had been purchased 3.5 km away the outskirts of Nawabshah. The boundary wall is constructed. Examination Centre for all disciplines , institute of Physiotherapy & Rehabilitation Center , institute of pharmaceutical sciences, institute of Public health & sciences , Begum Bilquees Sultana institute of Nursing, four Blocks of Hostels only for Girls, Residential Units for Faculty & Staff, Transport department, buss stand, Beautiful Masjid, Stadium are functional.

HISTORICAL BACKGROUND

The Deans of Basic Medical Sciences, Medicine & Allied Sciences, Surgery & Allied Sciences and Community Health Sciences are appointed as per act, and we have a fully saturated qualified faculty to deliver their best. During infancy period of PUMHS we have established the Institute of Physiotherapy & Rehabilitation Sciences in 2012, Begum Bilqees Sultana Institute of Nursing in 2012, Institute of Pharmaceutical Sciences in 2014 and Institute of BS Public Health Sciences in 2016. Now the PUMHSW is going to start peoples institute of technologist in HHealth with four disciplines Bachelor of Sciences

Bachelor of Sciences intensive Care Technology (BS-ICT), Bachelor of Sciences Anesthesia Technology (BS-AT), Bachelor of Sciences Cardiovascular Technology (BS-CST) & Bachelor of Sciences Medical Laboratory (BS-MLT).

BASIC DEPARTMENT

The University has 2 academic blocks. One includes Anatomy, Physiology and Biochemistry departments with air-conditioned Dissection Hall and Seminar rooms while the other one includes Pharmacology, Pathology, Community Medicine, and Forensic Medicine departments along with Administration offices, Central Museum, Skill Lab, Digital Telephone Exchange, Three Fully airconditioned Lecture Halls and air-conditioned Seminar rooms. The old Latif Hall was demolished, and new graceful building was erected having Vice Chancellor's Secretariat with Academic Council Hall and Teacher's Common room at the ground floor & capacious 850 seated fully air-conditioned Latif Hall at first floor. The existing two storied library has at present about 18,000 reference books and 48,000 textbooks and various new editions of medical journals. Learning Resource Centre (LRC) and I.T Department are also established with 100 computers, CD-ROM & Multimedia facilities, and Internet access.

CLINICAL DEPARTMENT

The clinical departments include Medicine, Surgery, Gynae & Obs, ENT, Ophthalmology, Anesthesiology, Orthopedics, Pediatrics, Cardiology, Chest Diseases, Psychiatry, Dermatology, Neurology, Radiology (Ultrasonography / C.T. Scanning, MRI), Neurosurgery, Urology, Nephrology, Oncology & Pead's Surgery. The attached Peoples University of Medical & Health Sciences Hospital has total bed strength of 875 at present. A modern C.P.S.P regional center is also discharging their academic obligations under MoU with PUMHS in the very premises of this University, which is fully Air-conditioned with Digital Library and internet facilities, Multipurpose Hall.

HISTORICAL BACKGROUND

FOREIGN NATIONAL STUDENTS

The total number of students at present is 2186 from first year to final year MBBS, DPT, Pharm-D, BS Public Health & BS Nursing. On the teaching faculty side there are 44 sanctioned posts of Professors, 47 Associate Professors, 86 Assistant Professors, 31 Senior Registrars, 34 Senior Lecturers & Lecturers 75.

POSTGRADUATE COURSES

This University is permanently recognized by PM&DC & HEC for postgraduate courses in all specialties including FCPS, MS. (Surgery, Eye, ENT, Gynae & Obs, Neurosurgery, Orthopedics & Urology), M.D (Medicine, Pediatrics & Cardiology), D.C.P, D.G.O, D.C.H, D.O, DA, D.L, D.C.P.S, M.Phil. (Anatomy), M.Phil. (Physiology), M.Phil. (Biochemistry), M.Phil. (Histopathology), M.Phil. (Microbiology), M.Phil. (Pharmacology), MPH (Community Medicine), and are regularly conducted at PUMHSW, Nawabshah (SBA). The undergraduate & postgraduate examinations comprise BCQ, short essay and long essay practical's with OSPE / OSCE, Long & Short cases.

TEACHING AND LEARNING FACILITIES

LECTURE HALLS:

All lecture halls are air conditioned and fully equipped with multimedia, white boards, and other teaching facilities.

LIBRARY:

The library is well furnished and having enough books of Allied Health Sciences and Basic Medical Sciences. Access to the Central/Digital Library.

SKILL LABS:

At PTH, we have the following fully equipped skill Labs:

- Skill Lab MLT
- Skill Lab Anesthesia
- Skill Lab Intensive Care
- Skill Lab Cardiology
- Anatomy Museum

COMPUTER LAB:

Computer/IT Lab is fully equipped with advanced computer systems and high-speed internet connectivity. Students have access to online literature, and they can utilize it for their routine academic requirements.

HOSPITAL/CLINICAL TRAINING:

All the clinical training will be provided at Peoples Medical Collage Hospital Bedded 875 along with attached Institutes (Institute of Mother & Child Health bedded 300, Benazir institute of urology & transplantation Bedded 300 & Nuclear Medicine oncology & Radiotherapy institute Nawabshah 100 Bedded) tertiary care hospital. It is the third largest health care facility in the Sindh Province, having around 20 departments. It has all the major and minor specialties with state-of-the-art diagnostic and supportive services such as pathology, radiology (CT scan & MRI), dental, anesthesia and cardiology.

HOSTEL FACILITIES:

Hostel facility is available for female students in the campuses with all necessary requirements.

SPORTS/EXTRA CURRICULAR ACTIVITIES:

Annual sports week will be organized each year. A study trip will be conducted every year.

TRANSPORT:

Transport will be provided to female students from the centralized pool of PUMHSW.

SAFETY & SECURITY:

The college is provided with good security arrangements e-g CCTVs/DVR and the services of security guards. They provide round-the-clock security to the campus. Fire extinguishers are available at every floor along with emergency exit.

CANTEEN:

The People's institute of Technologist in health has a separate canteen that serves during working hours. Besides catering for the food and drinks, some daily needed items are also available.

POLICIES/RULES & REGULATION

ADMISSION ELIGIBILITY

- People's institute of Technologist in Health offers admission in 4 (four) different disciplines with a limited number of seats.
- The candidates will apply on prescribed form available at the official website of PUMHSW (pumhs.edu.pk).
- Admissions will be opened for male/female gender having Domicile of Sindh.
- Candidate shall have passed HSC-II (Pre-Medical) conducted BISE secured at least 50% marks or its equivalent or 'A' level and have secured at least 60% marks (C-Grade) in aggregate passed from any Board of Higher Secondary Education in Pakistan or any institution from foreign countries duly recognized by Inter Board Committee of Chairman (IBCC) are eligible to apply for admission.
- The candidate who has passed HSC-II (Pre-Medical) examination 2020-21, 2021-22 & 2022-23 and secured at least 50% as aggregate in the subjects of English, biology, Physics & chemistry shall be eligible to apply for admission.
- Fresh candidates who have a diploma of one year in the concerned discipline from a recognized institute can apply in the concerned discipline.
- Admission will be purely on merit based, approved by admission/selection committee of PUMHSW as per policies.
 - The decision of the admission committee will be deemed as final.
 - Selected candidates will be medically checked by the college Medical Board for their fitness or otherwise.
 - After selection the student must deposit original documents to the university.
- Age limit 17-25 years.

- Institute will charge 50% of total Fee from All Faculty Members of PUMHSW, Nawabshah. SBA.
- Candidates having the Hafiz ul Quran certificate will be given an additional 20 marks, which will be added to their HSC-II marks.
- Reserved seats for disabled person as per government of Pakistan 's policy.

Note:

- Candidates who obtained less than 50% marks are not eligible.
- candidates who have completed their diploma through online courses are not eligible to seek admission.

ADMISSION/SELECTION COMMITTEE

- | | |
|--|----------|
| • Vice chancellor | Chairman |
| • Pro-Vice Chancellor | Member |
| • Academic Director | Member |
| • Principal PITH | Member |
| • Registrar | Member |
| • Dean of Faculty of Medicine Allied | Member |
| • Dean of Faculty of Surgery Allied | Member |
| • Dean of Faculty of Basic Medical Sciences | Member |
| • Dean of Faculty of Community Health Sciences | Member |

ENTRY TEST

- All eligible candidates for admission to Bachelor of Sciences intensive Care Technology (BS-ICT), Bachelor of Sciences Anesthesia Technology (BS-AT), Bachelor of Sciences Cardiovascular sciences Technology (BS-CST) & Bachelor of Sciences Medical Laboratory (BS-MLT) will be required to appear in the Entrance Test.
- The entry test shall be conducted from the prescribed intermediate syllabus of Boards of Intermediate and Secondary Education of Pakistan.
- There will be 100 multiple choice questions in the test distributed in the following manner:
 - a) Biology 30 questions
 - b) Physics 30 questions
 - c) Chemistry 30 questions
 - d) English 10 questions

Formula for Working out the Overall Merit:

- a) Matric Science/ O level / Equivalent 10% weightage
 - b) HSC-II (Pre-Medical) / equivalent Examination 40% weightage extra 20 marks added having Hafiz UI Quran certificate.
 - c) Entry test 50% weightage.
- The time allotted to solve the paper will be 120 minutes.
 - Each correct answer shall be awarded 01 (one) mark and there will be no negative mark for any incorrect answer.

In case the overall score of two or more candidates are equal, the candidate securing higher marks in the HSC-II (Pre-Medical/Qualifying Examination) shall be ranked higher in merit for the purpose of admission. If the HSC-II marks are also equal the candidate securing higher marks in Matriculation shall be ranked higher in merit for the purpose of admission and if the Matric marks of two or more than two candidates are also equal only, then the candidate older in age shall be ranked higher in merit for the purpose of admission. The production of equivalence of marks sheet from IBCC shall be the responsibility of the candidate.

The candidates who apply for admission on the basis of fake certificates / documents and detected at any stage shall be liable to prosecution under criminal law and their admission shall be cancelled. Also, they may be debarred for a period of 03 years for future admissions.

MEDICAL EXAMINATION

All the selected candidates shall have to undergo a medical examination through medical board constituted by the University.

The Selected candidates must produce the reports of following investigations.

Blood CP+ESR

Urine DR

X-Ray Chest

Vaccination Certificate against HBV

Screening of Hepatitis B & C Virus.

CANCELATION/ DISCONTINUANCE OF ADMISSION:

- The admission committee of PUMHSW has the right to cancel admission at any stage if the documents presented are found to be fake.
- A written application for cancellation/discontinuance of admission with suitable reasons will be required if any selected student wants to cancel/discontinuance her admission at any stage of the program after the cutoff date prescribe by the statutory authorities/university for admission to the first year of the course, they will submit a Pay Order of Rs.350,000/- (Rupees Three Lac Fifty Thousand only) in favor of the respective university as a penalty for wasting a precious seat.
 - Fee deposited is refundable as per the Refund policy guidelines of the PITH, PUMHSW.

Percentage % of Fee	Timeline for Semester
Full (100%) fee Refund	Up to 7th day of commencement of classes
Half (50%) fee Refund	From 8th to 15th day of commencement of classes
No Fee (0%) Refund	From 16th day of commencement of classes

MIGRATION POLICY

- For Migration, rules and regulation described by PUMHSW will be followed.

Change of discipline:

- There will be no change of discipline once selected.

Policy on Change of Name / Date of Birth:

The name and date of birth of candidates will be registered in the records of the university as given in their SSC Pacca Certificate only. No request will be considered Later, to correct the date of birth & spelling of the name of the candidates.

- The parents/Guardian and candidates are requested to verify & confirm these entries in the SSC Pacca Certificate at the time of the receipt of the same.
- Once admitted to a course of study in the university, the date of birth & spelling of name. as furnished in the SSC Pacca Certificate and submitted to the university at the time of the admission, shall be taken as final proof and no subsequent request for change of date of birth & spelling of name will be entrained by the university at any time under any circumstance, either during the course of study or after the completion such study. The student should take utmost care while entering their details on the portal at the time of their registration. They are responsible for any data mismatch at later stage.
- Every student shall give an undertaking to this effect duly countersigned by his/her parent or guardian at the time of admission.

Policy on Ragging:

- Ragging is strictly prohibited in the university campuses.

IMPORTANT NOTE:

All admissions are subject to fulfillment of all the prescribed eligibility conditions by the candidate. If it is found either at the time of admission or at a later stage, that the candidate has given false information/forged certificates or concealed material information, her admission shall be cancelled, and the student shall be dismissed from the college immediately.

- The University reserves the right to change the curriculum, course structure and the rules relating to admission, examinations, fee structure, refunds, etc.
- All disputes arising in the interpretation and implementation of the provisions will be referred to the Vice-Chancellor of PUMHSW, Nawabshah, and Vice-Chancellor 's decision shall be final and binding.
- In respect of matters relating to or arising out of this prospectus the jurisdiction shall lie in Puducherry alone.

Classroom Policy:

- The classroom session runs from Monday-Saturday 8:30AM to 2:30PM, Friday 8:30AM to 12:30PM.

Attendance Policy:

- It is mandatory that student attend all academic sessions including lectures, Tutorials, demonstration, seminars, practical's, assignments, hospital clinical wards & examinations.

Flowing Are Specific Policies Relative to Attendance:

- Students should be present in class at the scheduled time. Students arriving late within ten minutes of scheduled time will be marked **late** whereas those arriving after ten minutes will be marked **absent**. Three times being **late** will be considered as one **absence**. Students must be aware that informed/Sick/emergency leaves will also reduce
- The percentage of attendance as absentee will.
- As per requirements of Peoples University of Medical & Health Sciences for Women Shaheed Benazirabad Bachelor of Sciences intensive Care Technology (BS-ICT), Bachelor of Sciences Anesthesia Technology (BS-AT), Bachelor of Sciences Cardiovascular Technology (BS-CVT) & Bachelor of Sciences Medical Laboratory Technology (BS-MLT) respective councils, A minimum of 75% overall attendance is required for all subjects. The attendance of each student will be assessed before all exams. Those failing to meet required attendance will be allotted zero marks in subsequent exam/assignment and graded presentations and not eligible to appear in the professional examinations.
- Regularity and punctuality are essential. If a student is absent for three days without prior approval, he/she should submit a written explanation along with supporting documents to the university management. Failure to provide supporting documents and valid reasons for absenteeism disciplinary action will be taken against the student.
- Repeated absence from lectures, practical's, tutorials, demonstrations, and hospital clinical wards, without any justified/cogent reasons, will make a student liable for expulsion from university.
- The students must periodically check their attendance records from the concerned department.
- In all cases, leave taken will be at the student's own risk so far as the percentage of attendance is concerned and even the medical certificate will not condone any deficiency in attendance.
- Leave application less than one week shall be recommended by the program coordinator.
- The students who do not meet the required percentage of attendance, i.e., 75%, will have to make up for their deficiency by attending special classes during vacations or preparatory holidays & despite the fee Rs.1500/- per lecture collectively.

- The candidate having attendance less than 60% shall not be eligible to appear in the semester examination but she will be allowed to move in the next semester as mentioned in the “organization of semester system”.
- However, the candidate having attendance less than 40% shall not be eligible to appear in the re-sit semester examination. He / She shall appear with the next junior batch after fulfilling the required attendance in particular semester.

HOSPITAL/CLINICAL TRAINING POLICIES:

Attendance and timings in the clinical training will also be observed critically and there will be no compromise on these. Students are expected to follow the scheduled time strictly. If a student fails to secure 85% attendance in the clinical training, their marks will be deducted. In addition, students are also required to update their Logbooks on daily basis and must submit them on time at the end of the term (before commencement of final exam). If any student did not submit the Logbook, he would be given zero marks. according to the following process.

- **For Unsafe Practice**

- Documentation in “Incidence Form”
- Learning contract / corrective action.

- **For Unethical Behavior**

- Any misbehavior / misconduct will never be tolerated.
- There will be a formal hearing.

GENERAL POLICIES:

- Students are primarily responsible for their own learning and completion of the scheduled examinations and attendance of all academic activities.
- The entire building of College and Hospital including washrooms and student lounges have been declared as “**No Smoking Zone**”. Students are expected to respect it.
- Eating and drinking is prohibited in the classrooms/tutorial rooms, learning resource center and libraries etc.
- The students are expected to always dress in a simple and decent manner in campus. Tight trousers / Jeans, unpleasant shades and undesirable figures on shirts must be avoided. Students must wear lab coats while going to lecture halls, library and in hospital premises during duty hours.
- Students are not permitted to use mobile phones at any time while they are in campus or in the clinical areas.
- Students are not allowed to use Admin office phone for their personal use.

- Students are not allowed to attend visitors inside the college at any times.
- Written authorization from the principal is required before making any public statement, communication or correspondence with the press or other media for mass communication.

Disclaimer: For all the policies, there could always be an exception. For individual cases, depending on the nature of case, decisions are given by the relevant committee/competent authority.

 - Clinical Society
 - Social and Dramatic Society: The Society, in addition to an annual drama, arranges various other social activities.
 - Debating Society

INTRODUCTION SEMESTER

INTEGRATED TEACHING AND INTRODUCTION OF SEMESTER SYSTEM COURSES OF STUDIES, EXAMINATIONS AND MEDIUM OF INSTRUCTION

The system of teaching is an integrated semester system. It is a unique system in which education is delivered into a process where students can learn according to their interest. After evaluation of their performance / progress assessed through different type of tests and assessments, they earn degrees on their cumulative performance throughout the Program of their study, and they are not compelled to commit everything to memory for once-a-year performance.

The academic session shall comprise of two semesters each of sixteen (16) weeks, out of this period fourteen (14) weeks shall be the actual teaching period and the remaining two (2) weeks shall be for preparatory leave.

The teaching of first semester may normally commence from 1st week of January and may continue up to the 1st week of April. There will be two (2) weeks preparatory leave. The examination consists of Theory (SBQ + Short essay+ Long essay) Practical (OSPE & OSCE.)

ACADEMIC DETAILS

- Duration of course 4 years/8 semesters.
- Semester duration 16 to 18 weeks.
- Total number of credit hours 124-136.
- Number of courses per semester 4-6.
- Course load per semester 15-18 credit hours.

EVOLUTION CRITERIA

- Terminal examination.
- Midterm examination.
- Final semester test.
- Assignment/presentation.
- Internal evolution.
- Attendance.

OSPE/OSCE SYSTEM OF EXAMINATION

To provide uniform and bias free assessment of Practical/Clinical examination and to keep pace with improving teaching standard within country & abroad, OSPE pattern has been implemented to conduct practical / viva voce examination across the board. The teachers are taking their periodical test in basic and clinical side on OSPE pattern from January 2010.

MEDIUM OF INSTRUCTION

Instructions in all courses / Laboratories / wards are carried out in English.

ORGANIZATION OF SEMESTER SYSTEM

- i. Promotion from one academic year to the next higher academic year.
- ii. Policy of conducting Re-sit (repeat) examination.

FIRST AND SECOND SEMESTER EXAMINATION

First Semester students who after appearing in First Semester (Regular) examination, either declared pass or fail will be allowed promotion to second semester.

Upon promotion in second semester, students who have either passed or failed in first semester examination both will be allowed to appear in second semester examination.

Pending result of second semester examination, if the classes for third semester are commenced, students of second semester (either passed or failed in first semester) will be allowed to attend the classes of third semester.

After announcement of second semester examination result, students of first and second semesters will fall in the following groups.

- a) Passed First and Second Semesters.
- b) Passed First Semester but Failed in Second Semester.
- c) Passed Second Semester but failed in First Semester.
- d) Failed in both semesters.

Students under category b, c and d will then be allowed re-sit examinations of first and second semesters simultaneously while they remain under study process of third semester.

After announcement of re-sit (repeat) examinations result of both first and second semesters, the students will be bifurcated into the following groups.

1. Passed first and Second semester's examinations completely they will continue in third semester.
2. Students who failed either in First Semester or in Second Semester or both examinations will be reverted i.e. termed back to First Semester or in Second Semester or both with junior batch as the case may be.

Above group of students of Bachelor of Sciences intensive Care Technology (BS-ICT), Bachelor of Sciences Anesthesia Technology (BS-AT), Bachelor of Sciences Cardiovascular Technology (BS-CVT) & Bachelor of Sciences Medical Laboratory (BS-MLT) after term back will repeat the failure subject(s) of semester I or II or both with junior batch.

IMPORTANT:

In case of their failure in subject(s) of 1st / 2nd / both semesters after re-sit / repeat examination. They will be given two chances more. If does not clear 1st & 2nd semester in four attempts, they will cease to be eligible for further education in their respective course in Pakistan.

Note: This system is applied to all semesters in all subsequent years but in final year as per course.

Students who failed either in Seventh Semester & Eight Semester Bachelor of Sciences intensive Care Technology (BS-ICT), Bachelor of Sciences Anesthesia Technology (BS-AT), Bachelor of Sciences Cardiovascular Technology (BS-CVT) & Bachelor of Sciences Medical Laboratory (BS-MLT) Both examinations will continue to repeat failure subject (s) in re-sit Examinations till they completely pass Bachelor of Sciences intensive Care Technology (BS-ICT), Bachelor of Sciences Anesthesia Technology (BS-AT), Bachelor of Sciences Cardiovascular Technology (BS-CVT) & Bachelor of Sciences Medical Laboratory (BS-MLT) Examination.
