MESSAGE

It gives me immense pleasure to welcome aspiring students to the Peoples University of Medical & Health Sciences for Women, Shaheed Benazirabad. We shall stand on rising sun through journey of knowledge and discovery and overcome challenges to shape you into first-class professionals. The University will enable you in your growth and success. The University is relatively new, having been upgraded in 2011, In spite of that faculty comprises highly experienced and respected professionals who have been teaching and training medical students for decades. The experience and wisdom of the senior faculty with enthusiasm have settled this university as a powerhouse of innovation, modernity, and depth of knowledge.

The education you receive shall prepare you to face the challenges of tomorrow as best health professionals. You shall be required to serve the humanity with the compassion and care that PUMHS students are renowned in educating foreign students when you shall be seen as ambassadors of Pakistan with your outstanding skills and professional behavior. I wish to emphasize that your hard work will be the vivid star to success your dreams under the auspices of this university. Being Custodian/Registrar, I ensure that you shall receive high quality education enriched with teaching, training, research and true humanism. I hope you will give back your passion and commitment to make PUMHS the best institution of modern learning.

3. INTEGRATED TEACHING AND INTRODUCTION OF SEMESTER SYSTEM COURSES OF STUDIES, EXAMINATIONS AND MEDIUM OF INSTRUCTION

System of teaching is integrated semester system it is a unique system in which education is delivered into a process where students can learn according to their interest. After evaluation of their performance / progress assessed through different type of tests and assessments, they earn degrees on their cumulative performance throughout the Program of their study and they are not compelled to commit everything to memory for once a year performance.

The academic session shall comprise of two semesters each of sixteen (16) weeks, out of this period fourteen (14) weeks shall be the actual teaching period and remaining two (2) weeks shall be for preparatory leave.

The teaching of first semester may normally commence from 1st week of January and may continue up to the 1st week of April. There will be two (2) weeks preparatory leave.

The examination consists of Theory (SBQ + Short essay+ Long essay) Practical (OSPE & OSCE.)

3.1 Attendance Policy for the students

- As per requirements of Peoples University of Medical & Health Sciences for Women Shaheed Benazirabad DPT/PHARM-D/BS (Public Health) & BS Nursing (Generic & Post RN) respective councils, the minimum 75% attendance is mandatory for a student to become eligible to appear in the professional examinations.
- Every student is required to be regular and punctual for lectures, practical's, tutorials, demonstration and hospital clinical wards.
- The students must periodically check their attendance record from concerned department.
- The margin of 25% of absence in lectures, practical's, tutorials, demonstrations and clinical wards is desired to cover absence only on account of sickness or any emergency if considered justifiable.
- Repeated absence from lectures, practical's, tutorials, demonstrations and hospital clinical wards, without any justified/cogent reasons, will make a student liable for expulsion from University.
- In all cases, leave taken will be at the student's own risk so far as the percentage of the attendance is concerned and even the medical certificate will not condone for any deficiency in attendance.
- The students, who do not meet the required percentage of attendance i.e. 75%, will have to make-up their deficiency by attending special classes during vacations or preparatory holidays.
- However 10% waiver (5% waiver by Vice Chancellor, 5% by Pro Vice Chancellor and 5% by concerned Dean/Director of Institute) can be given on medical grounds or any other valid reason acceptable to the Vice Chancellor and waiver committee.
- The candidate having attendance less than 60% shall not be eligible to appear in semester examination but she will be allowed to move in the next semester as mentioned in the "organization of semester system"
- However the candidate having attendance less than 40% shall not be eligible to appear in the re-sit semester examination. She shall appear with next junior batch after fulfilling the required attendance in particular semester.

3.2 OSPE/OSCE System of Examinations:

To provide uniform and bias free assessment of Practical/Clinical examination and to keep pace with improving teaching standard with in country & abroad, OSPE pattern has been implemented to conduct practical / viva voce examination across the board. The teachers are taking their periodical test in basic and clinical side on OSPE pattern from January 2010.

3.3 MEDIUM OF INSTRUCTION

Instructions in all courses / Laboratories / wards are carried out in English..

3.4 ORGANIZATION OF SEMESTER SYSTEM

- i- Promotion from one academic year to next higher academic year.
- ii- Policy of conducting Re-sit (repeat) examination.

a)First and Second Semester Examinations

First Semester students who after appearing in First Semester (Regular) examination, either declared pass or fail will be allowed promotion to second semester.

Upon promotion in second semester, students who have either passed or failed in first semester examination both will be allowed to appear in second semester examination.

Pending result of second semester examination, if the classes for third semester are commenced, students of second semester (either passed or failed in first semester) will be allowed to attend the classes of third semester.

After announcement of second semester examination result, students of first and second semesters will fall in the following groups.

- a) Passed First and Second Semesters.
- b) Passed First Semester but Failed in Second Semester.
- c) Passed Second Semester but failed in First Semester.
- d) Failed in both the semesters.

Students under category b, c and d will then be allowed re-sit examinations of first and second semesters simultaneously while they remain under study process of third semester.

After announcement of re-sit (repeat) examinations result of both first and second semesters, the students will be bifurcated into the following groups.

1) Passed first and Second semester's examinations completely they will continue in third semester

2) Students who failed either in First Semester or in Second Semester or both examinations will be reverted i.e. termed back to First Semester or in Second Semester or both with junior batch as the case may be.

Above group of students of DPT/PHARM-D/BS (Public Health) & BS (Nursing) after term back will repeat the failure subject(s) of semester I or II or both with junior batch.

Important:

In case of their failure in subject(s) of 1st / 2nd / both semesters after re-sit / repeat examination. They will be given two chances more. If does not clear 1st & 2nd semester in four attempts, they will cease to be eligible for further education in their respective course in Pakistan.

Note: This system is applied to all the semester in all subsequent years but in final year as per course.

1) Students who failed either in Seventh Semester BS Nursing & Public Health or in ninth semester DPT & Pharm-D & in Eight Semester BS Nursing & Public Health or in tenth semester in DPT & Pharm-D or Both examinations will continue to repeat failure subject (s) in re-sit Examinations till they completely pass DPT/Pharm-D/ BS Public Health & BS Nursing Examination.

Each correct answer shall be awarded 01(one) mark and there will be no negative mark for any incorrect answer.

The candidates shall collect admit-slip for the Entry Test from the Admission cell of PUMHSW, S.B.A.

I. FORMULA FOR WORKING OUT THE OVERALL MERIT

- (A) Matric Science / O level / Equivalent 10% Weightage
- (B) HSSC (Pre-Medical) / equivalent Examination 40% weightage
- (C) Entry test 50% weightage

Example: If a candidate has obtained following marks:

- a) Matric Science / O level Equivalent examination 650 / 850 or 76.471 %**
- b) HSC /A- Level Equivalent examination 660 / 1100 or 60.00 %**
- c) Entry Test marks 100 / 100 or 50.00 %**

Her merit will be calculated as follows:

- a) Weightage for SSC =76.47% *0.1=7.647
O level / Equivalent**
- b) Weightage for HSSC =60.00 % *0.4=24.00**
- c) Weight age for Entry Test =80 % *0.5=40%**

Over all merit of the candidate =a+b+c =7.647+24.00+40=71.647

All calculations in percentages will be rounded up to two decimal points. Similarly the merit calculation of A- Level/ Equivalent candidates will be based according to the IBCC formula given below for final merit calculation.

A Grade-----	85/100
B Grade-----	75/100
C Grade-----	65/100
D Grade-----	55/100
E Grade-----	45/100

IV. In-case the overall score of two or more candidates are equal, the candidate securing higher marks in the HSC (Pre-Medical/Qualifying Examination) shall be ranked higher in merit for the purpose of admission. If the HSC marks are also equal the candidate securing higher marks in Matriculation shall be ranked higher in merit for the purpose of admission and if the Matric marks of two or more than two candidates are also equal only then the candidate older in age shall be ranked higher in merit for the purpose of admission. The production of equivalence of marks sheet from IBCC shall be the responsibility of the candidate.

V. The candidates who apply for admission on the bases of fake certificates / documents and detected at any stage shall be liable to prosecution under criminal law and their admission shall be cancelled. Also they may be debarred for a period of 03 years for future admissions.

**Institute of Physiotherapy &
Rehabilitation Sciences**

INTRODUCTION ABOUT IPRS

Institute of physiotherapy and rehabilitation sciences (I.P.R.S) PUMHSW, is the first ever Women public sector Institute of Sindh Government to start Doctor of Physiotherapy (DPT) program. The teaching for the graduates of physiotherapy DPT started in Dec 2012. The program offers a DPT curriculum that integrates theoretical and applied sciences through an evidence-based approach to healthcare management.

The main objective of the physiotherapy program of the Institute is to produce highly Skilled Rehabilitation Professional women at par with the best professionals in the world who will take care of the ever burgeoning of the disable community.

Also the poor patients of whole province in general & interior Sindh in particular could not have the facilities of this method of treatment. Moreover, the young blood did not have the easy & economical excess to improve their education & training. Hence there was dire need of establishing this Institute to impart quality Medical education dealing with physical therapy to relieve pain and re-gain strength after serious injuries, illness and surgery.

At present we are running Physiotherapy OPD & posting in the wards Peoples University of Medical & Hospital (PUMHSW) Nawabshah. The (O.P.D) is fully equipped with very modern high tech equipments. The students have not only the opportunity to see the working of gadgets but also have the chance to practically learn the methods of physical therapy on the patients attending the (O.P.D) & also in the wards.

To improve & update the knowledge of Faculty of IPRS we organized / conduct Continuous Medical Education (CME) & workshops as a regular feature in the institute.

VISION

Institute of physiotherapy and rehabilitation sciences, PUMHSW, S.B.A through its collaborative initiative will be recognized for its:

- * Innovative and inter professional curriculum**
- * Production of women leaders in the field of physiotherapy**

- 9. Demonstrate the professional and social skills to adapt to changing health care environments to effectively provide physical therapy care.**

ABOUT PHYSIOTHERAPY:

Physiotherapy or Physical Therapy, is a Health Care profession concerned with the assessment, maintenance and restoration of the physical function and performance of the body. It is a distinct form of care which can be performed either in isolation or in conjunction with other types of medical management. Used in conjunction with certain medical or surgical techniques, physiotherapy can complement these techniques to help provide a speedy and complication-free return to normal activity.

HOW CAN PHYSIOTHERAPY HELP?

Physiotherapy can help individuals by:

Identifying the problem area and treating this directly:

Physiotherapists treat a wide variety of injuries and problems using many different techniques. In many cases, the causes of pain and dysfunction are obvious, but sometimes things are not so black and white, especially when symptoms are inconsistent or difficult to describe. Physiotherapists can perform a wide range of tests to help locate the source of the problem and implement the appropriate treatment strategy.

IDENTIFYING THE CAUSES AND PREDISPOSING FACTORS:

Physiotherapists are not only interested in the problem, but factors which contribute to the problem. Identifying factors such as poor posture, improper techniques, muscle imbalances, poor work practices or other bad habits allow interventions to be made to correct these factors. This will reduce the risk of the same thing happening again in the future.

PROVIDING REHABILITATION FOLLOWING OCCUPATIONAL OR SPORT INJURIES:

Physiotherapists can help you get back to work or sport more quickly by providing rehabilitation program and advice on how to prevent a recurrence of the injury.

PROVIDING REHABILITATION AND EXERCISE BEFORE AND AFTER SURGERY:

If you are having or have had major surgery, physiotherapists are often involved in pre-operative and / or post-operative programs to help get you moving again, making sure your length of stay in hospital is not unexpectedly extended.

PROVIDING ADVICE ON EXERCISE PROGRAMS:

If you have the urge to get fit and stay healthy, one of the best ways to do this is through regular exercise. However if you have not done any serious exercise for a while, it may be advisable to seek assistance to devise an appropriate program for your needs, and ensure you are not at risk of injury.

PROVIDING OR ADVISING ON SPECIAL EQUIPMENT:

With different conditions or disease processes, special equipment may be required

Physiotherapists can advise on many different types of equipment, including splints, walking aids, wheel chairs, occupational equipment etc.

SPECIALITIES

- 1. Orthopaedic physical therapy**
- 2. Cardiovascular physiotherapy**
- 3. Respiratory / Chest physiotherapy**
- 4. Neurological physiotherapy**

INSTITUTE OF PHARMACEUTICAL SCIENCES

INSTITUTE OF PHARMACEUTICAL SCIENCES

Institute of Pharmaceutical Sciences was established in the year 2014. The objectives of this institute are to provide Pharmacy Education to the females at their door step, who are living in the far-flung areas of the Sindh province. This Institute will also facilitate Education to the girls who are coming from other parts of the country and overseas.

Institute of Pharmaceutical Sciences is housed in the Campus of the University in a newly constructed building. The Institute of Pharmaceutical Sciences offers five years Pharm-D program.

This Institute will impart the education in following areas;

- **Biostatistical approach in various aspects of drug research, their design, calculation and evaluation.**
- **Knowledge about different dosage forms used in pharmacy, their small and large scale preparation, formulation of different dosage forms, and practice of community pharmacy.**
- **Pharmaceutics is Branch of health science, That Link health science with chemical sciences.**
- **Pharmaceutics focus on Large scale formulation of safe, effective and Ready to use dosage forms, from Drug/API, without affecting its quality. Pharmacist focus on administration of calculated dose size, in appropriate dosage form to a suitable patient in order to enhance the therapeutic outcomes.**
- **Knowledge of stability of medicines and their ingredients, principle of compounding, dosage, chemical, physical and therapeutic incompatibility, packaging methods, labeling procedures, legal requirements affecting drug storage, supply and records, containers and labeling of substances and misuse of drugs.**
- **Techniques for preparation of the dosage forms and latest advances in product formulation and preparation at industrial level.**
- **Role of a pharmacist in Hospital Management includes the distribution, storage and purchase of drugs in hospital.**
- **Clinical aspects like therapeutic drug monitoring, determining toxicities, drug interaction, adverse drug reactions and dosage regime establishment.**
- **Biopharmaceutical concepts of bioavailability and administration, distribution, metabolism and excretion of drugs.**
- **Knowledge of rules and legislation about controlled, poisonous and dangerous drugs and procedures regarding registration and sale of drugs.**
- **Pharmaceutical biotechnology and the development of different useful biotechnological products, including gene therapy & pharmacogenomics.**
- **The modern concepts of microbiological application including microbiological assays of pharmaceuticals, sterilization, disinfection and fermentation, also basic knowledge of immune system.**
- **Knowledge about crude drugs, evaluation and use, different methods used for extraction and purification of crude drugs from different plant and animal source.**
- **Relationship between drug concentration and biological response, drug action overtime, factors affecting absorption, distribution, binding, metabolism and elimination of chemicals.**

ABOUT INSTITUTE OF PHARMACEUTICAL SCIENCES

1.VISION

Institute of Pharmaceutical Sciences (IPS) PUMHSW aspires to be the leading institute for professional education, providing holistic academic and research standards which are relevant to the needs of industry, health profession and community at large. while maintaining the highest ethical standards.

2.Mission

IPS strives:

To mould graduates of high moral values and distinction; committed to lifelong learning, leadership, integrity and professionalism, in response to the national and global needs.

To produce graduates who are highly employable by advancing the boundaries of scholarship ; by providing affordable educational opportunities, training and services, reflective of the highest standards of innovative teaching-learning approaches and strategies .

3.DOCTOR OF PHARMACY & OTHER PROGRAMS (MPhil & PhD)

□ **The Doctor of Pharmacy (Pharm-D) is a 5-years professional degree program. It is one of the fastest-growing and the most imperative healthcare profession. Apart from preparing the complex and lifesaving drugs, Pharm-D students also learn to provide patient-based services, such as drug monitoring, disease management and counseling.**

□ **The goal of Institute of Pharmaceutical Sciences is to produce pharmacists who are responsible healthcare professionals and assure the rational drug therapy.**

□ **PharmD course has been designed to produce scientifically and technically competent Pharmacists who can apply their skills, as to provide maximum health care services to the patients. Pharmacy students will be provided opportunity to gain greater experience with patients and have close cooperative relationships with health practitioners. Admissions in PharmD are purely on merit basis as per allocation.**

□ **At the same time institute will give opportunity to the eligible candidates for post graduate education at MPhil & PhD level in various fields such as Pharmaceutics, Pharmaceutical Chemistry, Pharmacology, Pharmacognosy and Pharmaceutical Medicinal Chemistry.**

4.OBJECTIVES OF PHARM-D

-To keep pace with the innovations in the modern sciences.

-To produce highly skilled pharmacists who fulfill the industrial needs and they should be well familiar with the basic medical and pharmaceutical sciences in order to prepare a dosage regimen for an individual patient.

-To implement the internship programs in various disciplines of pharmacy during study, In order to enhance Practical skills in according with theoretical knowledge.

-To make our graduates more skillful, competitive and knowledgeable both practically and theoretically and having leadership qualities.

-To produce the graduates to meet the challenges of 21st century of health care problems, and can participate in research and development in the field of pharmaceutical sciences at national & international Level.

5.INTRODUCTION PHARMACY

It is the branch of the health sciences which deals with practice, or profession of formulating, compounding, preserving and safe & effective administration of the drugs.

Pharmacists are the “drug experts” among health professionals. They understand the basic mechanism of drug action, how it reacts with foods, disease and other drugs (drug-drug interaction), drugs desired effects and side effects.

It is also the responsibility of pharmacist to ensure the safe, effective and economical use of prescribed medications and to verify the validity of prescriptions in order to satisfy the provisions of the law.

In addition, a Pharmacist consults with patients and health practitioners, monitors and evaluates drug therapy, teaches, conducts research and ensures that all patients understand the proper use and storage of medications. Therefore the pharmacist plays fundamental role for the community and for the country, through health care system.

2. PHILOSOPHY OF NURSING

Begum Bilquees Sultana Institute of Nursing believes in the philosophy that reveals the human care. As of the nursing perspective of Human care reflects the human responses in the disease as well as helps to identify the potential risks that can effect the well-being of a person. The concept of the holistic human care provide the basis of nursing philosophy and corporates the course components of nursing paradigm: Nursing Person, Environment and Health. The interaction of environment with human being would alter the human response of the status of well-being or disease otherwise. Among the challenges of 21st century includes the need to inculcate the “Human care nursing sciences” through the scientific research approach. In addressing these challenges, the philosophy of human care nursing sciences provides the framework to transform the nursing curriculum by integrating the up –to-date nursing science to comprehend the various factors; influential for the human responses.

3. VISION STATMENT

To provide quality education to students, groom their personality and to enhance their sense of responsibility, confidence, commitment, and dedication to word their profession, community and society at National as well as Global level to provide better health care to community.

4. MISSION STATEMENT
